SERVICES

Turnkey Appointment

Project description

High profile luxury residential development along the south coast, of England, opposite the land mark De La Warr pavilion. We employed all of the Design Team (Architect, Structural Engineer, M&E in-house engineer) that were hand picked to deliver a total design solution from demolition of existing buildings through to handover.

Our ability to provide clients with a single point of contact saves valuable time, streamlines information flow and relieves client accounting pressures through a single point invoicing.
