

Warner Village Cinemas, UK, Europe & Japan

1996 - 2004

Andrew Smith was responsible for the Mechanical & Electrical Construction Design for Warner Brothers International exhibition circuit looking after UK, Germany, Spain, Portugal, Italy & Japan.

Based in London & Leeds, Andrew worked on over 50 multiplexes and 500 screens for Warners. Andrew set up and managed in-house and external facilities Management targets and life cycle cost modelling.

Simon Jeffries joined Warner Village at the end of the Village Cinemas International European roll out. It was during this last phase of Warner Village Cinemas construction that both Simon & Andrew became firm friends and set up various companies over the ensuing period.
