

We were challenged at project commencement of fit-out works on site with adding an additional 2 “boutique” screens to the ground floor, utilizing some spare developer retail units. These 2 additional screens are themed slightly differently to the main 6 screens and has at chair waiter service.

The Light Cinemas, New Brighton, The Wirral, Liverpool

18th December 2011

New Brighton - 1st Floor Plan

We were appointed to provide professional services for the creation of a new cinema chain for the UK market. The cinema formed part of a new development incorporating Morrisons Supermarket, Travelodge and various Restaurant bars along the sea frontage of New Brighton. The development was undertaken by a local Liverpool developer, Neptune Developments and formed part of a larger regeneration project along the New Brighton coast line.

Working with B&I Design Architects and interior designers, we provided the delivery services for the cinema managing the entire cinema capped contribution from Neptune Developments including professional fees, construction and furniture, fixturing and specialist equipment (FF&E).
