

Apollo Cinemas, Nationwide

2010 - April 2012

Bicester Proposed floor plan

Following the departure of a previous Management firm, we were appointed to provide professional services for the Apollo Chain of 13 cinemas, Nationwide.

We undertook a series of feasibility studies with EWA, Apollo's Architects, at Altrincham, Burnley, Lemington Spa, Torbay plus co-ordinated Design works on new build sites at Brentwood, Bicester and Stoke until the chain was finally sold to Vue Cinemas in March 2012

We were challenged with reviewing previous FF&E fixturing contract arrangements, providing new bench marking for sites moving forward, reviewing all existing maintenance agreements and recommending a new FM contract arrangement.

We also advised on financing for capital equipment replacement for existing roof top plant across multiple sites.
